

# A New Era in Global Commodity Trading

THURSDAY 27 JAN, 11:00 EST / 17:00 CET

Covantis' eagerly anticipated arrival into  
North American Agri Markets

Register your place now

## Inefficient. Costly. Manual. Paper-based. Risky.

This is the reality of physical commodity post trade execution processes across the supply chain. As an industry, we must - and can - do better.

We're therefore delighted to invite you to our upcoming webinar [A New Era in Global Commodity Trading: Covantis' eagerly anticipated arrival into North American Agri Markets](#) - held in partnership with Covantis.

Taking place on **27 January 2022 at 11:00 EST/17:00 CET**, we'll be exploring how Covantis are **replacing outdated, inefficient post-trade processes with modern solutions.**

Following a highly successful launch in early 2021 in Brazil– **Covantis now arrives into the markets of USA and Canada.** Powered by **Blockchain technology** and owned by the industry, Covantis alongside industry leaders will discuss how a **secure digital platform minimizes operating risks whilst increasing market efficiency** for the entire agri commodities trading and shipping industry.

You'll get to hear from leaders of global trading firms, including:

- Lucas Dorrestein– Global Head of Operations – **Viterra**
- Maurice Hurst – North America Trade Execution Lead – **Cargill**
- Petya Sechanova – CEO – **Covantis**
- Sorin Albeanu – Head of Commercial – **Covantis**

They'll dive into topics including the **challenges and pain points** of global trading firms - particularly those active in the US and Canada, and the China CFR market, as well as **where Covantis can support the industry** and their **perspectives on the future.**

We hope to see you there, and please do share this with any colleagues who might also be interested!

Best wishes,  
Covantis and The Commodities People Team
